

## **PRODUCT CODE : QJ90**

CONGRATULATIONS ON PURCHASING THE LONGSHOT PRO FLETCHING JIG, WE HOPE THAT YOU FIND THIS TO BE A RELIABLE AND EASY TO USE TOOL.

### **COMPONENTS :**

1 X LONGSHOT PRO FLETCHING JIG COMPLETE

### **INSTRUCTIONS :**

THE JIG IS SUPPLIED PARTIALLY OPENED FOR EASE OF PACKAGING.

LOOSEN THE WING NUT ON THE SIDE AND SLIDE THE JIG TO THE ANGLE THAT YOU REQUIRE, AND TIGHTEN THE WING NUT. WHEN FINISHED SLACKEN THE WING NUT AND YOU CAN THEN FOLD THE JIG TO A HORIZONTAL POSITION FOR EASE OF STORAGE IN YOUR TACKLE BOX.

THE CLAMP UNIT IS HELD IN PLACE BY TWO SLOT HEADED SCREWS WITH AN ELONGATED SLOT, THESE CAN BE SET STRAIGHT OR ANGLED AS YOU REQUIRE FOR YOUR PARTICULAR SET UP.

THE NOCK LOCATOR HAS 6 POSITIONS, 3 X LINES FOR RECURVE AND 3 X DOTS FOR COMPOUND. IF YOU ARE A RECURVE ARCHER AND REQUIRE CONVENTIONAL FLETCHING THEN USE THE THREE LINE POSITIONS, (TAKE CARE TO NOTE THE STARTING POSITION IS MARKED WITH THE LONGER LINE **SEE PHOTO A**). COMPOUND ARCHERS USING A LAUNCHER REST THEN USE THE THREE DOT POSITIONS, (TAKE CARE TO NOTE THE STARTING POSITION IS MARKED WITH DOT ON THE TOP OF THE NOCK SLOT **SEE PHOTO B**). THIS WILL GIVE YOU A COCK FLETCHING IN A VERTICAL POSITION.

LOCATE YOUR NOCKED SHAFT ON THE BRASS NOCK LOCATOR AT THE CORRECT STARTING POSITION AS DETAILED ABOVE, AND INSERT THE FRONT END OF THE SHAFT UNDER THE RETAINING SPRING, THIS WILL HOLD IT IN PLACE SECURELY. IDENTIFY USING THE RULER ON THE CLAMP THE POSITION OF YOUR FLETCHING, PLACE THE VANE IN THE CLAMP AND THEN RUN A BEAD OF ADHESIVE ALONG THE BASE OF THE VANE, SLOWLY SLIDE THE CLAMP DOWN AND TIGHT AGAINST THE END OF THE JIG BESIDE THE NOCK

LOCATOR. CAREFULLY GUIDE THE CLAMP TIGHT AGAINST THE ARROW SHAFT.

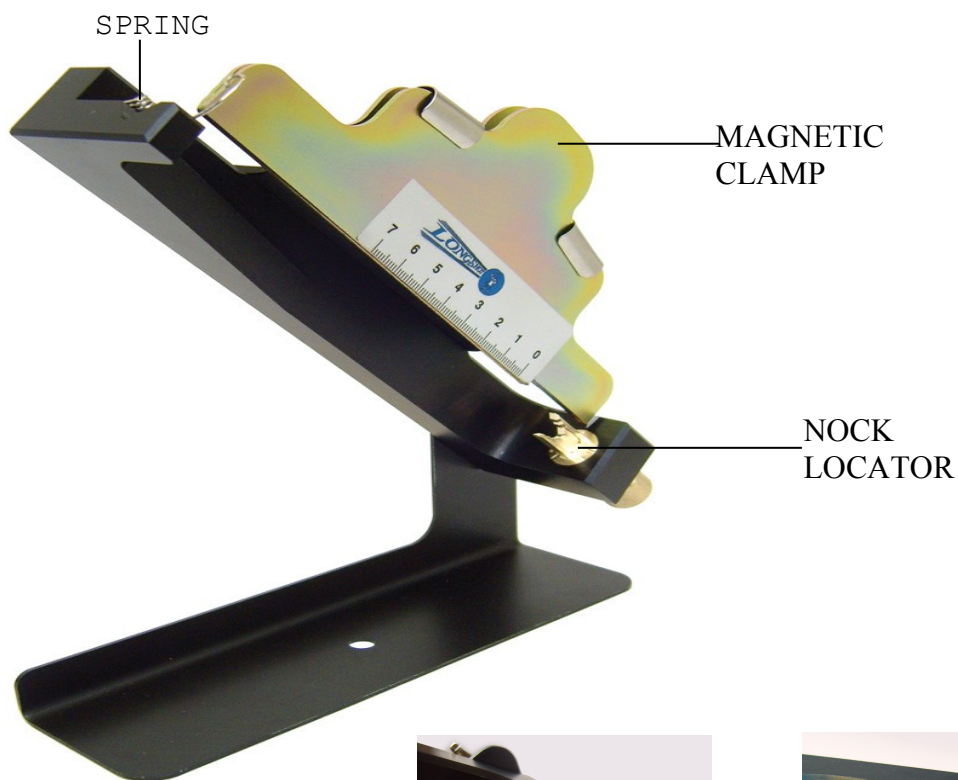

AFTER THE GLUE HAS SET UNDO THE CLAMP AND REMOVE, ROTATE THE NOCK LOCATOR ANTI-CLOCKWISE TO THE NEXT POSITION(EITHER DOT OR LINE FOR YOUR BOW TYPE), CONTINUE WITH THE SAME FOR THE THIRD VANE.

WHEN COMPLETE REMOVE THE CLAMP, UNDO THE ARROW FROM THE RETAINING SPRING, TOP AND TAIL AND LEAVE TO DRY ACCORDINGLY.

WHEN ALL YOUR ARROWS HAVE BEEN FLETCHED PLEASE CLEAN ANY EXCESS GLUE FROM THE CLAMP, LOOSEN THE WING NUT, AND CLOSE THE JIG TO THE HORIZONTAL POSITION FOR EASY STORAGE IN YOUR TACKLE BOX.

WE HOPE THAT YOU HAVE ENJOYED USING THIS TOOL.
